Dear Parent or Carer,

As a 'fantastic finish' to our project on Space we would like to invite you and your child to a very special Science evening on February 6th at 5.30 pm.

We are hoping to have some Space related science activities inside and some opportunities for stargazing outside (please come dressed up warmly) and will then finish with hot chocolate and a bedtime story in the hall.

The event should last about an hour and is obviously weather dependent (Too much cloud or rain will not be good for stargazing!)

Ideally, we would like only the reception children in attendance but we do understand that siblings may have to attend due to child care. Please bear in mind, we will not have additional staff in attendance to supervise older siblings.

If you have any further questions, please do ask – we hope as many of you as possible will be able to attend.

Best wishes,
The Reception Team
