

# Year 6 Home learning

## BEING HUMAN 2

There are lots of house points available for completed work. This is in addition to the weekly reading, GPS and maths.

This Homelearning is now compulsory. Please complete AT LEAST one of these tasks and hand in by 29<sup>th</sup> March

Our new book for this half term is Wonder by R. J. Palacio.

In this book, Auggie goes to school for the first time.

Imagine you knew someone who had never been to school before, and you wanted to tell them all the amazing things you do there.

Can you write about one of your favourite school memories?

It can be from any year group and be a trip, event or activity you have done with school.

Auggie has never been to school before and has no idea what the school is like so, he goes in early to go on a tour.

Imagine this was not available for a new student here, instead you could read an information leaflet all about St Peter's.

Please create an eye-catching, descriptive and informative leaflet about St Peter's C of E School, Henfield.

Imagine that we had a school newspaper where we can report about important events that happen at our school.

Take one of your favourite events from St Peter's and write about it as a newspaper article.

### Remember to include:

- A catchy heading,
- A subheading,
- Paragraphs,
- Active voice and
- A range of punctuation.

In Wonder, Auggie loves Star Wars and wants to dress up as his favourite character.

Do you have a favourite topic or activity that you enjoy?

Can you tell me all about your favourite topic in a creative and imaginative way?

You can present the information however you want.

In Wonder, Auggie's appearance is different to ours however; he is just like us... **extraordinary!**

Can you write a poem about what makes you extraordinary?  
(Remember it doesn't have to rhyme).

Auggie's favourite Star Wars character is Boba Fett.

Can you research this character and write a fact file about him?  
or  
Can you research a different Star Wars character and write a fact file about them?
